What is the International Young Lawyers' Congress?

The International Young Lawyers' Congress is the Annual Congress organised every year by the International Association of Young Lawyers, AIJA. Under this year's theme '**Sustainability and the Law: Planet. People. Future**', over 700 international legal professionals are expected to explore the ways in which today's digitalised and globalised world can become more sustainable. The programme will feature several plenary sessions, workshops and working sessions organised by AIJA's 20 commissions from 3-7 September, at the Parco dei Principi Grand Hotel & Spa in Rome.

This year, the theme is inspired by the United Nations Sustainable Development Goals, the blueprint to achieve a better and more sustainable future for all, according to the UN. To encourage debate, the event will be structured around three thematic areas (**Sustainable Society, Sustainable Company** and **Sustainable Law Practice**) to build up extensive knowledge and awareness around the set of 17 goals.
